

FEATURE	MS OFFICE	GOOGLE OFFICE SUITE
1) TEXT FORMATTING	Deep control over typography, Custom styles, paragraph spacing, and advanced layout design options.	Basic to moderate text styling options suitable for standard documents.
2) TABLE CREATION	Extensive table formatting options, border styling, cell padding, and integrated formulas.	Standard table creation, cell merging, and simple formatting controls.
3) REAL-TIME COLLABORATION	Supported via One Drive/SharePoint, but local application syncing can occasionally lag.	Seamless real-time co-authoring, live cursor tracking, instant comments, and quick link sharing.
4) SAVING/ EXPORTING FORMATS	Native support for .docx, .pdf, .rtf, .txt, .odt, .html, and rich media formats.	Supports web exports and standard document types (.docx, .pdf, .html).
5) OFFLINE AVAILABILITY	Fully functional offline on desktop applications without any preliminary setup.	Requires prior configuration (enabling offline mode in Google Drive/Chrome) to function without internet.
6) MACRO/ AUTOMATION SUPPORT	Advanced automation and custom scripts using VBA(Visual Basic for Applications).	Cloud-based automation using Google Apps Scripts(JavaScript-based).
